

## Kansai III Medical Distribution Center Opens - Strengthening the Pharmaceutical Logistics Network in Compliance with GDP -

LOGISTEED, Ltd. is pleased to announce that one of our group companies, LOGISTEED West Japan, Ltd., has opened "Kansai III Medical Distribution Center" in Sanda City, Hyogo Prefecture, and it started operation since December 2.

LOGISTEED group is actively responding to environmental changes in business such as the expansion of demand for sophisticated pharmaceutical logistics by establishing distribution centers in compliance with GDP (Good Distribution Practice) and obtaining CEIV Pharma certification. The newly opened center is positioned as a medical platform center in the western Japan area for our medical distribution network, following the opening of the East Japan II Medical DC in 2021. It features appropriate temperature control, strict security management, seismic isolation structure, and emergency power generator, making it a center that also supports the BCP (Business Continuity Plan) of customers in medical businesses. Additionally, considering the increasing awareness of safety and customer compliance, a hazardous materials warehouse is also attached within the premises.
